

# BACKING

## Your Vehicle at its Most Dangerous?

While backing your vehicle up may sound like a simple procedure, this task caused 49% of all non-traffic non-crash fatalities from the years of 2001-2005. Millions of dollars are spent each year on accidents occurring at less than five miles per hour.

Topics include:

- Safe practices
- What to watch for

This course will equip you with recommended safe backing techniques.

2 Hour Course
