

Are your off-pavement drivers following the right safety procedures for their environment?

Do they know:

- **That 20 miles per hour may be too fast in some off-road areas?**
- **That 4-wheel vehicles cannot handle all terrain?**
- **How to select off-road parking locations?**
- **How to inspect a vehicle used in off-road locations?**
- **How to secure equipment properly?**
- **How to transition from a paved to an unpaved surface?**
- **The limits of 2-wheel and 4-wheel drive vehicles?**
- **Precautions to take when backing?**

This course offers your novice, experienced, and seasonal off-pavement drivers this critical, need-to-know information. This course also covers defensive driving techniques as they relate to the type of driving, and pressures, experienced off-pavement.

2 Hour Course

**OFF-PAVEMENT
DRIVING**
