

Defensive Driving Course 4

Produced by the National Safety Council, the Defensive Driving Course 4 (DDC4) offers practical strategies to reduce collision-related injuries and fatalities. It addresses the importance of attitude in preventing crashes, and reinforces good driving skills. Most importantly, DDC4 shows students the consequences of the choices they make behind the wheel, and puts defensive driving in a personal context. No other driver training program has a higher rate of success in reducing the severity and frequency of collisions for its participants than the DDC4. Study after study has shown that drivers who participate in the Defensive Driving Course average fewer collisions and fewer driving arrests than drivers who do not take the course. Presented by Risk Management in conjunction with the Utah Safety Council, this course has set the standard in the industry for over 40 years, and continues to improve driver behaviors.

Benefits of attending include:

- Attendees receive a certificate to take 50 points off of their Utah driving record after completing the classroom course. You may receive point reduction once every 3 years.
- Most insurance companies offer those students over 55 years of age or older a reduction in their automobile insurance when completing this course. (Please contact your insurance company for details)
- If you have received a fine for not wearing your safety belt, you may reduce your fine up to \$30.00 by attending this course.

4 Hour Course
